## DOUAI SCENE OF INDESCRIBABLE DESOLATION

PARIS, Oct. 21.—The Allied forces, while pushing farther into central Belgium, on the north are fighting their way forward on the south toward the Belgian border south of Valenciennes. Sunday the Allied troops had to fight the elements as well as the Germans. Rain fell continually and the soldiers were soaked and partly blinded while airplanes were of little use.

With spirits undampened, however, the Allied troops continued their efforts and in Flanders they worked a little nearer to the important city of Ghent and are approaching very close to the west bank of the Scheldt.

On the right of the front in Belgium the British fifth army has to all intents and purposes taken Tournai, an important railroad junction. Farther south the British third army has crossed the Selle and is headed toward Mons by way of Quency and north of the Mormal forest, while General Rawlinson's fourth army has reached the Sambre-Oise canal and is advancing around the southern end of the Mormal forest up the valley of the Sambre toward Maubeuge.

On the British right General Debeney is outflanking Guise and is marching toward Hirson for the purpose of taking the Hunting line in the rear.

## REPORT TO HEADQUARTERS WHEN THE RUSH IS AT END SHOWS TOTAL, \$1,772,900

"We Got All That Was Necessary" was Comment of Chairman E. T. Norton in Reviewing the Situation; Baltimore & Ohio Credit Here is \$112,000.

## FAYETTE COUNTY SUBSCRIBES FOR \$10,500,000

The Connellsville district went over the top in the Fourth Liberty Loan drive with a margin of \$165,400, a total of \$1,772,900 being reported to the loan headquarters in Uniontown on Saturday night. There was a rush of bond buyers on Saturday. A total of 9,935 bond buyers in this district was also reported.

E. T. Norton, chairman of the district, and in charge of the drive, said this morning that he was well pleased with the satisfactory way in which the loan went over. Robert Norris, who had charge of the organizing of the canvassing teams was gratified with the work done by them.

"We got all that was necessary," said Mr. Norton, "and we got it with something to spare. Lots of money from our district went into Westmoreland and Somerset counties, but we got enough. In view of the fact that our plans were upset by the influenza epidemic, which necessitated the canceling of arrangements for the Great Lakes band and the cutting out of our noon meetings, I think we went over very satisfactorily."

Throughout the closing hours of the drive patriotic citizens went to their banks and increased their subscriptions to boost the city over the loan quota. Every bank in the city attained its quota and both the Yough Trust Company and the Union National Bank greatly exceeded their allotments. The First National bank by far, the greatest number of subscriptions.

The Union National Bank over-subscribed by \$100,450 and the Yough Trust Company exceeded its goal by \$33,250. The Baltimore & Ohio railroad subscriptions which are credited to this city exceeded the \$80,000 estimation made by the local campaign committee and a total of \$112,000 was reported.

The subscription placed in Connellsville by the West Penn railways company amounted to \$10,600. The amounts reported by the various banks of this city follow: First National \$549,000, 5,222 subscriptions; Second National, \$242,500, 565 subscriptions; Citizens National, \$225,000, 559 subscriptions; Colonial National, \$121,000, 177 subscriptions; Title & Trust Company, \$162,800, 111 subscriptions; Union National Bank, \$101,550, 1,200 subscriptions; Yough Trust Company, \$290,000, 1,222 subscriptions.

More than 60,000 Fayette counties had a part in making history for the county in the Fourth Liberty Loan, subscribing to a total of ten and one half millions toward the war's finances as compared with \$7,574,350 the government asked it to raise. Vice Chairman W. Russell Carr, in charge of the campaign, made the following statement:

"Ten million five hundred thousand dollars measures Fayette county's response to the Fourth Liberty Loan. More than sixty thousand subscribers of 12 to 20 years imposed by the court of Fayette county for the murder of his former business partner, Frank A. Burky here last December 18. He made the trip from Uniontown by automobile in the custody of Sheriff Thomas L. Howard, he being the first prisoner to be taken by motor vehicle to the institution in Allegheny county.

Lindley was apparently cheerful and seemed to enjoy the trip, the sheriff said. With him were two other prisoners, Frank Manzer and Mike Gluck.

"Fayette county has made a larger over-subscription to the Fourth Liberty Loan than any of the nineteen counties of Western Pennsylvania, including Allegheny county. Of the over-subscription of ten-million dollars from these counties, Fayette alone contributed 30 per cent. The splendid Liberty Loan organization of the county has fully justified the confidence reposed in it; and available as it is for any contingency that may arise, it is a real asset to the county. Fayette county owns today \$25,000,000 of Liberty Bonds and War Savings Stamps, a sum equal to more than 25 per cent of the assessed valuation of all the real estate in the county."

## Bill of Civilization Against Germany

From Manufacturers Record.

What a staggering bill it will be!

It will be a bill for four years, up to the present time—how

much longer no one yet knows—of the most fearful crimes the

world has ever known.

It will be a bill for the millions who have died in defense

of civilization and for the millions who have been blinded and maimed

and permanently invalidated.

It will be a bill for all the agencies which hundreds of millions

have had to endure.

It will be a bill for the tears which have flowed from the eyes

of millions of mothers and wives, sisters and sweethearts because

their loved ones have had to endure all of the hardships which the

villainy of Germany has inflicted as they fight on the side of

Heaven in the battle against Hell.

It will be a bill for such sorrows as earth has never known by

dishonored womanhood which in shame and deathless woe cries

out to Heaven against the criminals.

It will be a bill for mangled children and for tens of thou-

sands of helpless babies done to death by Germany's crimes.

It will be a bill not merely for the tens of billions of money,

not merely for the ships that have been murdered, for the towns

and the countries that have been ravished, for the cathedrals and

churches that have been destroyed; these are only a part of the

material things which must be charged against Germany in the

bill of civilization against barbarism.

It will be a bill which no human words can ever portray, and

no auditor can ever state in figures.

These are some of the items in this bill against Germany, the

magnitude of which no expert calculator who ever lived could

measure by human calculations.

Though the tears can never be wiped away, the broken hearts

never be mended, the millions of murdered brought back to life,

the dishonored womanhood never be restored, the bill must be

summed up in the most graphic language known to mankind.

It must be written on the pages of human history with a pen fed

by the blood of millions of broken, bleeding hearts. There it will

stand forever as an unpaid debt from which Germany can never

through eternity be released.

As well might Judas have sought to blot out the reality of the

betrayal of his Lord and the agony of the Cross as for Germany

to hope ever to wipe out the record of its crimes. In letters of

fire, burned into the soul of every man and woman living now,

or in the centuries to come, they will forever stand.

Germany will for ten thousand years be regarded as more

typical of rotten-heartedness than Judas and Nero.

Though Germany can never wipe out this bill, there is a bill

for material things which should represent every dollar spent by

America and our Allies in saving civilization from being destroyed.

There is a bill for every ship that has been murdered, for

every pound of foodstuffs and raw materials of which Germany

has robbed others.

There is a bill for the disruption and disorganization of every

business on earth.

There is a bill for every fruit tree cut down, for every town

looted and burned, for every car and locomotive stolen. These

things must be summed up and Germany be made to pay to the

utmost farthing.

To require anything less of Germany would be to condone

its crimes, to become an apologist for them, and a co-worker with

Germany in supplanting the world's moral strength.

There is also a bill which can be paid only by the death upon

the gallows of the leading criminals.

## AXES TO GRIND.

The man who has an axe to grind is

always great, and kind, and

sweetness he is full, and he indorse

it I say however for I read a story

from truth, which is all well. The

friends I usually read when I go bulg-

ing down the street, their own views

entertain, and if I say the day is

grand, when there is rain to beat the

bird, they say I live none. And

if I talk of politics, and stand up for

a lot of hicks, these friends of mine

detest. They say my dome is full of

bait, and prod me roundly in the stars

until they spoil my vest. I surely like

the honest skate who doesn't pause or

hesitate at speaking of his mind, but

I dislike the urban gent who always

is in unguish bent, who has an ax to

grind. He is a passing sweet, this

gent, but I might swoon on his

earn, and he would only smile, but I

most certainly will find what sort of

ax he has to grind, in just a little

while. Some day he'll grab me by

the coat and say he'd like to have

me, he needs it, forty ways, and when

I gently turn him down he'll shove

the smile and spring a frown, and have

me all his days.

occupation and without visible avo-

cation of means of substance found

within the city, shall, "upon proof of

the fact, or by confession," be subject

to a fine not exceeding \$100 and, in

default of payment, be imprisoned for

a period not exceeding 30 days. Con-

cerning leaving the proposed ordi-

nances is less specific in its defini-

tions than the penal code and fixes \$10

as the maximum fine and 10 days as the

maximum imprisonment. Without a

repealing clause in the new ordinance

its enactment will provide two sets of

penalties for the same offense and

otherwise conflict with the penal code,

under the provisions of which every

case of idling or loitering can be taken

care of through the means already

provided.

The second object sought by the pro-

posed ordinance is less certain to be

attained by the means proposed,

doubt existing as to the validity of

any ordinance requiring "all alie-

bodied persons" of the age pre-

scribed, or of any age, to be usefully

employed for a specified number of hours

each week. Under the vagrancy laws,

upon which the section of the penal

code referred to is based, idlers and

loafers can be apprehended and pun-

ished, but no act of the generally as-

sembly of Pennsylvania has yet pre-

scribed that any persons can be com-

pelled to be usefully employed any

specified number of hours a week or

for any other period of time.

Under the Selective Service Law the

"work or fight" order of President Mar-

shall extend the draft ages—18 to 45—

hence the extension of the age limit to

60 years by the proposed new ordi-

nance is an assumption of authority by

the city council which it does not pos-

sess. By virtue of the draft regula-

tions, and without other express au-

thority which might be conferred by

a city council, police officers of a mu-

nicipality may apprehend persons who

violate the "work or fight" order, pro-

vided such persons are registrants un-

der the draft law and regulations, but

others have no warrant of law to ap-

prehend persons above 45 years of

age for such violations.

If Pennsylvania, like West Virginia,

Maryland, New Jersey and New York

had "work or fight" laws prescribing

the age limits of persons subject to

its provisions, even if such laws were

different from those prescribed by the

draft law and regulations, the city

council could very properly enact an

ordinance based thereon. In the ab-

sence of such a law it would appear

that the effective efforts in the direc-

tion of applying a "work or fight"

regulation will be a rigid enforcement

of the existing ordinance against loaf-

ing, together with vigilance upon the

part of the authorities in apprehend-

ing all draft registrants who seek to

evade the order of General Crowder.

Meantime it might be well for a con-

certed movement to be started with a

view to having the forth coming legis-

lature enact a "work or fight" law that

will give cities and boroughs full au-

thority to act under its provisions.

There will be just as much need for

such a law after the war as there is

now and we ought to be as progres-

sive along this line as our neighbor-

ing states have been.

To Mrs. Elizabeth Franey, of Reservoir, that her son, Corporal John Franey, was wounded July 30. Franey was a member of Company L, 110th Regiment.

Mrs. and Mrs. Joseph Quere, of Saturday received a telegram that their son, Walter Quere, had been a slightly wounded in action, August 27.

On Saturday the call for men for Camp Crockett, Ga., for next Thursday was cancelled on account of Spanish influenza and the members of the local draft board who work at the armory were inoculated.

Soda Fountains Closed. On Saturday the ice cream parlors and all soda fountains were ordered closed as a means of preventing the spread of the epidemic.

Inoculating Frick Employees. The H. C. Frick Coke company has issued general instructions to first aid men to turn on inoculating needles and their families to guard against Spanish influenza.

Colored Boy Missing. A search is being made for a colored boy, known as James Ernest Gilbert, who is said to be a member of the 110th Regiment, and who was seen at the Bennett armory, Alice, Wednesday morning.

Let's say of his aunt, Mary A. Scott, at Alice, where he made his home and has not been heard from. He is said to be going to Scotland, and information was given by one of the local officers, Captain Mary Scott, of Sadie Gilman, of Scotland.

Mistaken Identity. "Cleopatra," "Cleopatra" called for, who liked the names for her sons.

"Why, I thought your cat's name was Napoleon," protested the visitor. "He was Napoleon till he had his arms," replied Mary stoutly.

## WANTS PICTURES

To Give to French Folks: They Enjoy Views from the States.

Letter number 36 from Samuel M. Lick to his mother, Mrs. C. L. Lick, of Jefferson street, from France reads in part as follows:

"Have not had any mail since the 11th of August and I surely will have a bunch when I do get the same. Well, dear mother, I am well and enjoying the best of everything. Had my picture taken Monday and tonight I get them, so if they are good I will send you some. Am enclosing a little picture I had taken at a Frenchman's house. Mother they are all married and this is the place where we always have our big feeds. She is certainly a wonderful little woman and next to you, sweetheart, she is the best cook I would want. Mother she cooks pointers so well that when you eat them they melt in your mouth; and talk about eat, when I go down for supper I always seem starved."

"Am going there for supper tonight and I know that I will have a good feed. Was down for supper four times last week and surely do enjoy the good eats. She has a wonderful garden and the things she hands out are fine. Still she has beans on the string and I have not learned how to eat them yet. Mother, I wish you would do me a good favor. The next time you go down a street buy me about 20 or 30 post cards showing views of Connelville, Pittsburgh, or any town you like and send them to me. The people over here like cards from the States and I am going to give them to the madam as she has been good to me and I want to return a favor when I can."

"Well I did not have time to finish this letter last night so I will try and do so now. I received your letter, No. 1, today with the picture and when I saw the picture I could not keep the tears back."

"I often sit and dream about you and home and just wonder what you are doing. Gee, mother won't it be a great day when I get back, I have often thought about that day, and what we will do and say to each other. That will be the greatest day in my life when I meet home to see you and dear daddy."

"Love to all. Lovingly your son, 'SAM.'"

## WAR WORK

American women nurses are installed eight miles in the rear of the fighting lines "over there." Right here at home many women should learn nursing to take care of the sick or, in emergencies, the wounded. You can learn a great deal by obtaining the "Medical Adviser," a book of 1,000 pages, bound in cloth, containing chapters on First Aid, Bandaging, Anatomy, Hygiene, Sex Problems, Mother and Baby. 200 prescriptions for acute and chronic diseases, previously illustrated by wood cuts and colored plates. Ask your druggist or send 50c. to Publisher, 653 Main Street, Buffalo, N. Y.

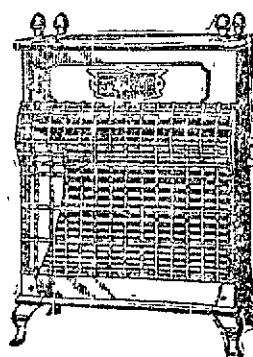

If a woman is nervous or has dizzy spells, suffers from awful pains at regular or irregular intervals she should turn to a tonic made up of herbs, and without alcohol, which makes weak women strong and sick women well. It is Dr. Pierce's Favorite Prescription. Then, for the liver and bowels nothing is so good as Dr. Pierce's Pleasant Pellets.

Bowen, Pa.—"I want to tell the whole world what a blessing what a blessing Dr. Pierce's Pleasant Pellets have been to me. I had suffered for five years and doctored with several different doctors each one doctoring me for something different. At last I was persuaded to undergo an operation for fibroid tumor at which time they and they took two tumors and the appendix, but I still went on to suffer. At a certain time it seemed I would surely lose my mind. I began to take the 'Pleasant Pellets' and 'Pleasant Pellets' and I can very truthfully say I feel better than I have for five years. I will always praise Dr. Pierce's Pleasant Pellets with all my heart."—Mrs. W. M. Hockensmith, R. F. D., 2, Delaware.
